Now how did the coach tell me to hold this ball?

Our Dedication

The class of 1975 proudly dedicates this yearbook to someone who symbolizes all the beauty and warmth a class could want to remember. This person is not only a teacher but a true friend; a person to look up to, to learn from and to share laughter with. This teacher offers a genuine gift of compassion to all he knows, and to strangers, a friendly smile.

Those of us who had the privilege to work with him will hopefully find some of his ideals influencing our lives. Through his capable leadership and cooperation he has helped the class of 1975 to be one of the best ever. Thus, we extend our gratitude to you for your patience and understanding of us throughout the school years.

We are leaving now, but your dedication and enthusiasm, Mr. Boyer, will remain in our thoughts forever.

Look out Joe Namath!!!!!!

I love the simple, uncomplicated Christmas gifts I get?!!!!!!!!!?

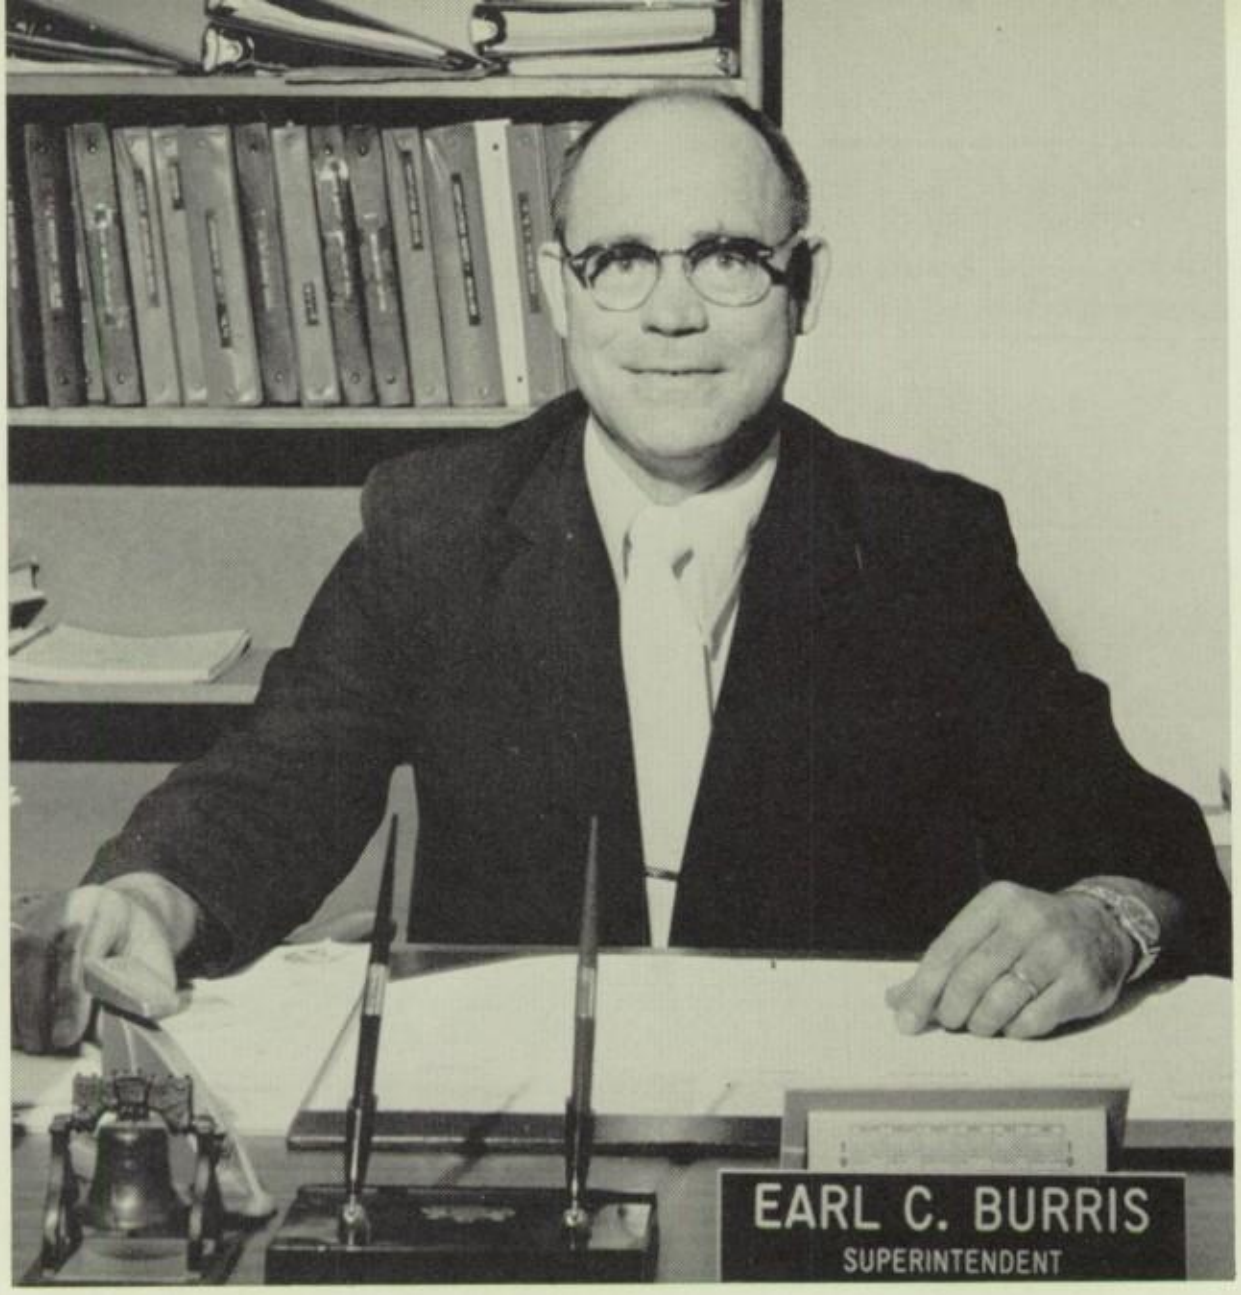
Who's the wise guy who turned the gas on?

The wet head is dead.

Millersburg Area Board of Education

SEATED — H. Knarr, F. Cummings, R. Rissinger, A. Shaffer, R. Boyer. STANDING — T. Miller, W. Reed, S. Bailey, E. Burris, M. Seecof, M. Troutman.

The 1975 Susquehannock staff would like to take this opportunity to thank the School Board for their understanding, help, and cooperation with the class of "75". Many times the results of their work and decisions go unrecognized and disputed. Through the year we have realized just how much of an important role they really do play in our school system.



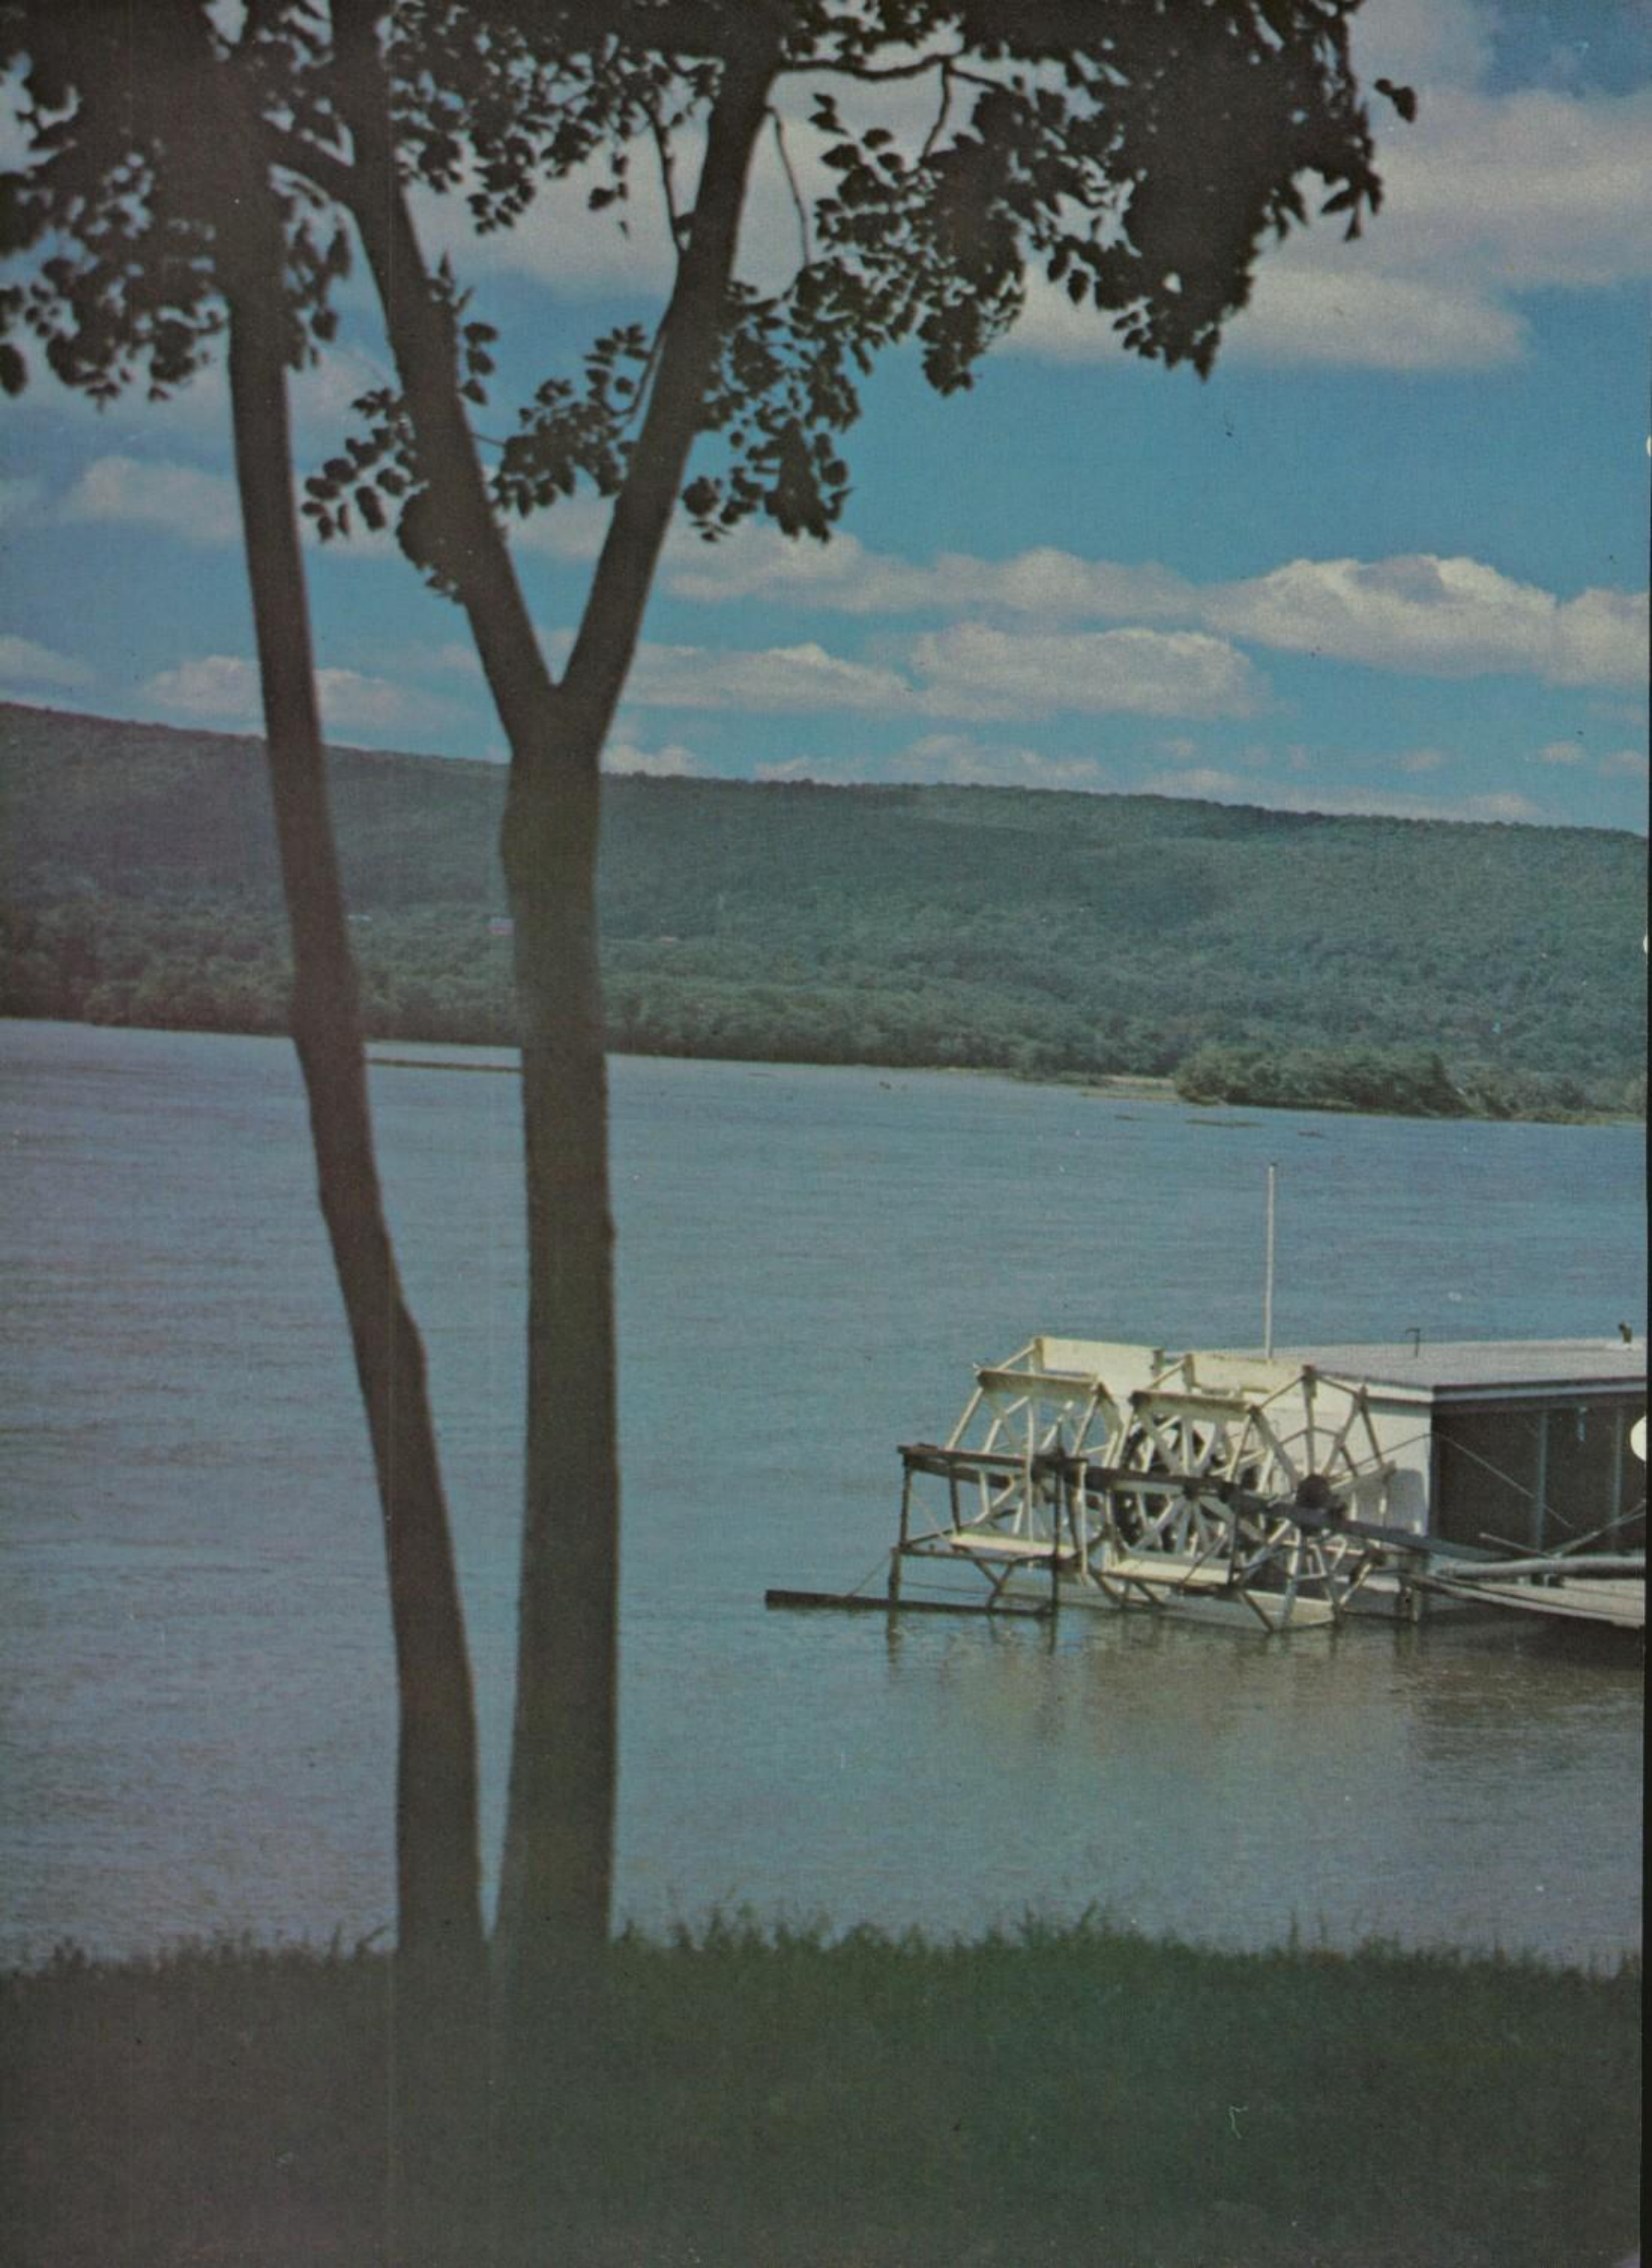
Superintendent

There is a story of a farmer, who when urged to attend a Farmer's Institute to learn to farm better, said, "I already know how to farm better than I do." Many of us are like that, we fail to do as well as we know how. Society's greatest need is to find some way to get people to care and to do better.

Dale Carnegie wrote "How to Win Friends and Influence People." He made up a short course on the same idea. Millions of copies of the book have been sold and the course is being taken by thousands of people today. The great need today is for a book or a course entitled "How to Use Common Sense." You have an opportunity to write that book; one that will get people to use common sense, and your name will be one that is recognized everywhere.

Why don't people use common sense? Why do they do things which they know are harmful? Doesn't it stand to reason that every intelligent person should be on guard against that which is harmful and be motivated by that which builds up? Yet our motivation seems to be to do what others do in order to be popular. This is a false motivation. We could think of money as motivation but neither your various team captains nor any of the other athletes on the team are performing for money. Many are motivated by the desire for respect, admiration or the fellowship of the other athletes. We should all let personal achievement be our true motivation.

The Class of "75" faces many challenges and we hope you will meet them using common sense. We wish you the utmost success and may your many accomplishments be credit to your family, your school, and your community.



High School Principal

Mr. James Bullock

To the Class of 1975, we the Faculty of Millersburg Area High School extend our sincere congratulations to you on having reached this place in life. There will be many decisions and counter-decisions confronting you as you proceed in life. We hope we have helped you to apply the investigative process in the decisions that you will make in life as you proceed toward your goals.

Best Wishes and Much Success.

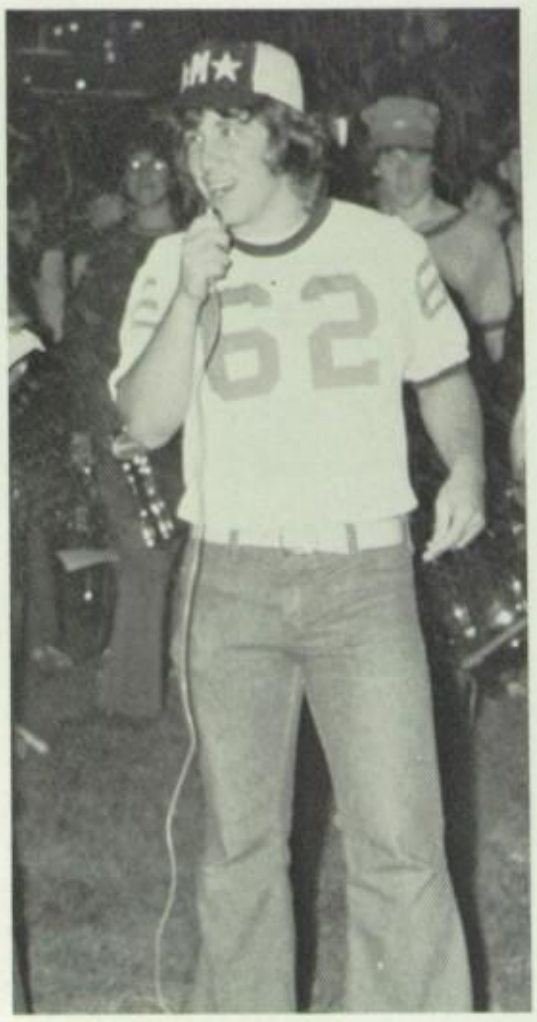
INDIAN PRIDE

Did you say your party needed livened up?



Best singer the Fisherville Hotel ever had.

M.H.S. one winged flight to Siberia.

I wonder what's growing under this hat?

The strength of 10 million men.

Come in Adam "12"!

Excedrin Headache #101.

I wonder if I should help?

Aren't you glad you use dial?

Hey, you — over there!

Yes, I do think the present condition of Afghanistan is a very serious situation.

Please hold it down, don't let my body excite you!

Hit'em high, Hit'em low.

Thrilled much?

"We're Bullish on America"

Pinned in the 1st quarter.

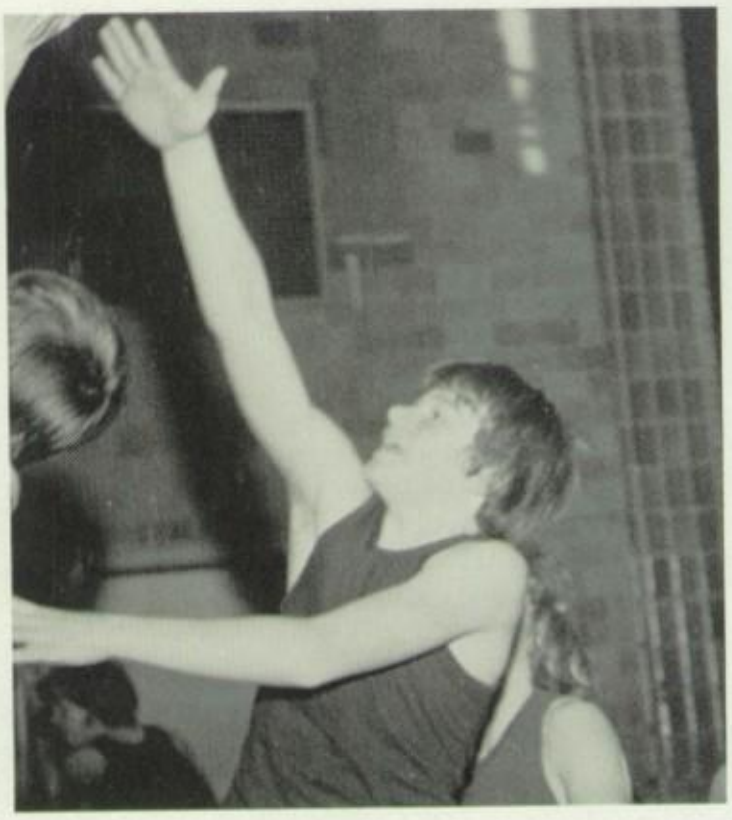
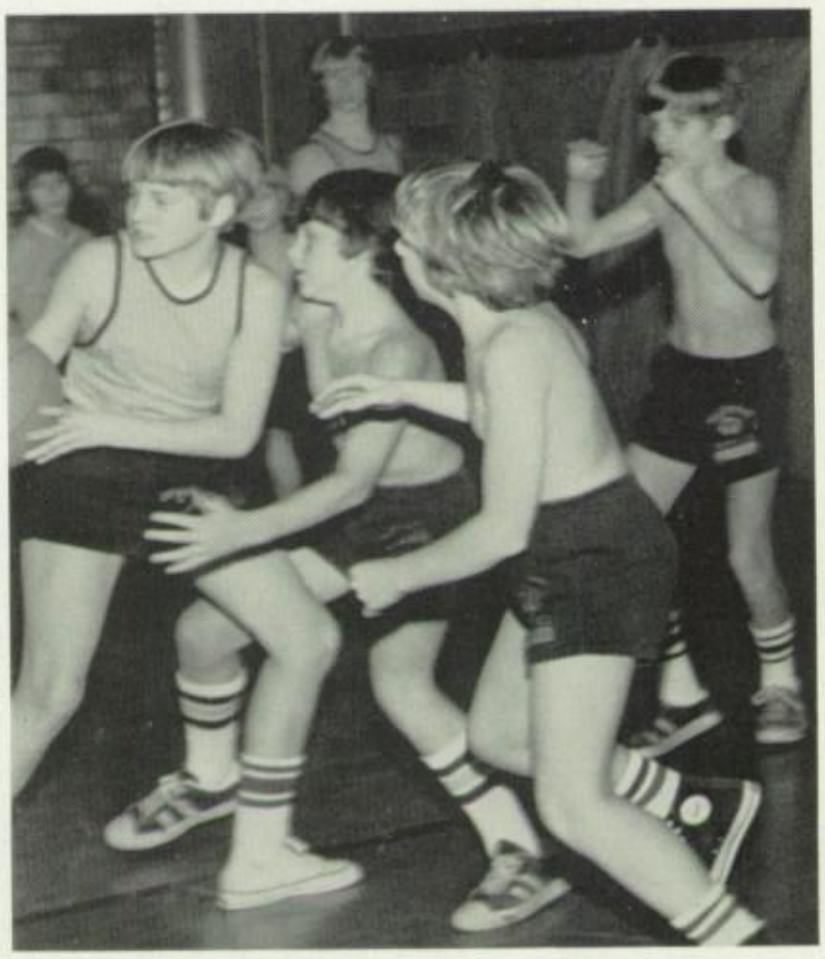
7th and 8th Grades





Did you say you didn't like my looks?

After this, I'm doing strictly classical ballet.

Faster than a speeding bullet . . .

Should have eaten my wheaties.

Shame on you too!

Sue, don't shoot yet . . . wait for me!!

Ref, does it look like I need a shave?

Chalk up another great U. D. Victory!

Sure wish I was 7' tall now!

I don't want to play this silly game.

You guys sure do dance different!??

Those rafters are like my monkey bars.

I'll only fall down if Specht will pick me up on her stretcher.

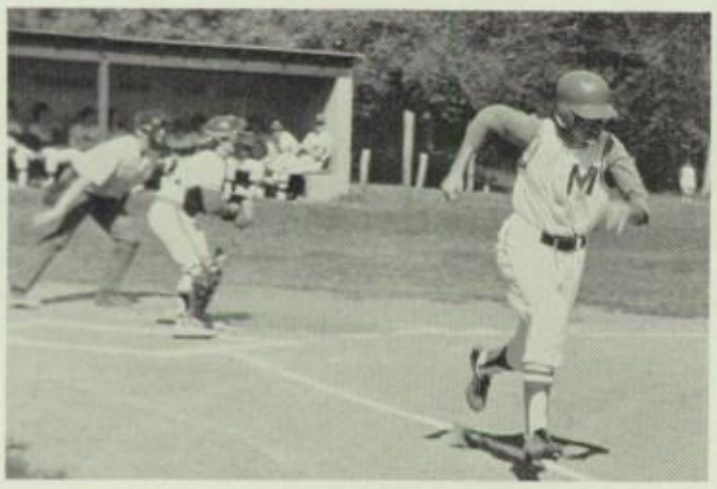
Don't move, I need that butterfly for my bug collection.

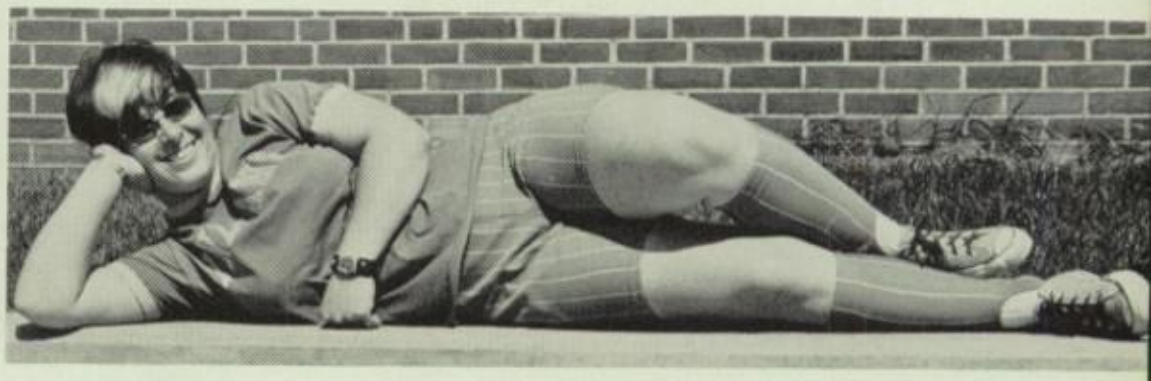


Who put starch in my deodorant.

"Now you see it's like this."

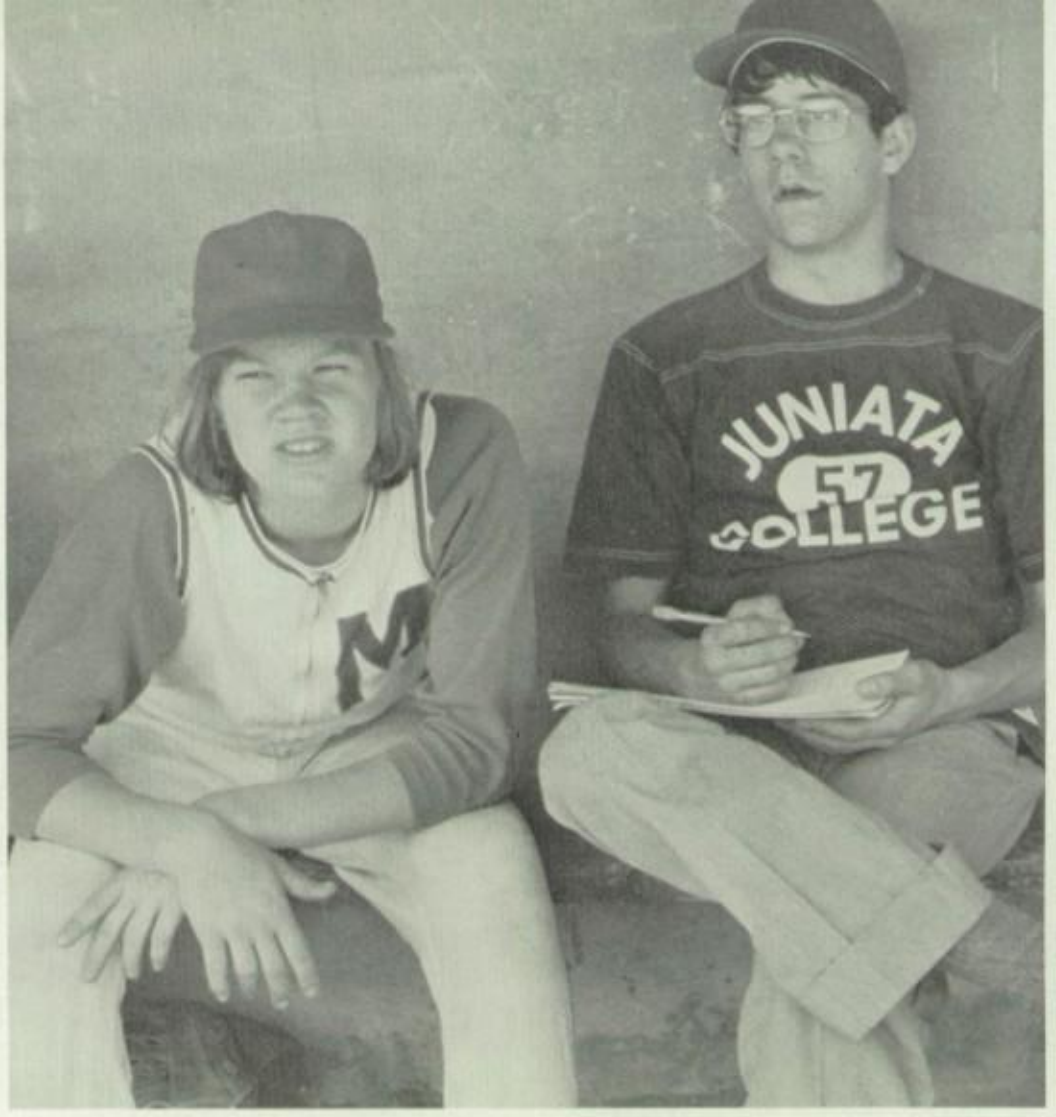
What's that running down her leg.

"If you don't leave, I'll hit you."



"I wish that dumb catcher would get off my foot!"

A cookie a day keeps the player gay.



"Do you see that mosquito out there in center field?"

"Care to restate that phrase?"

"Here we go again . . ."

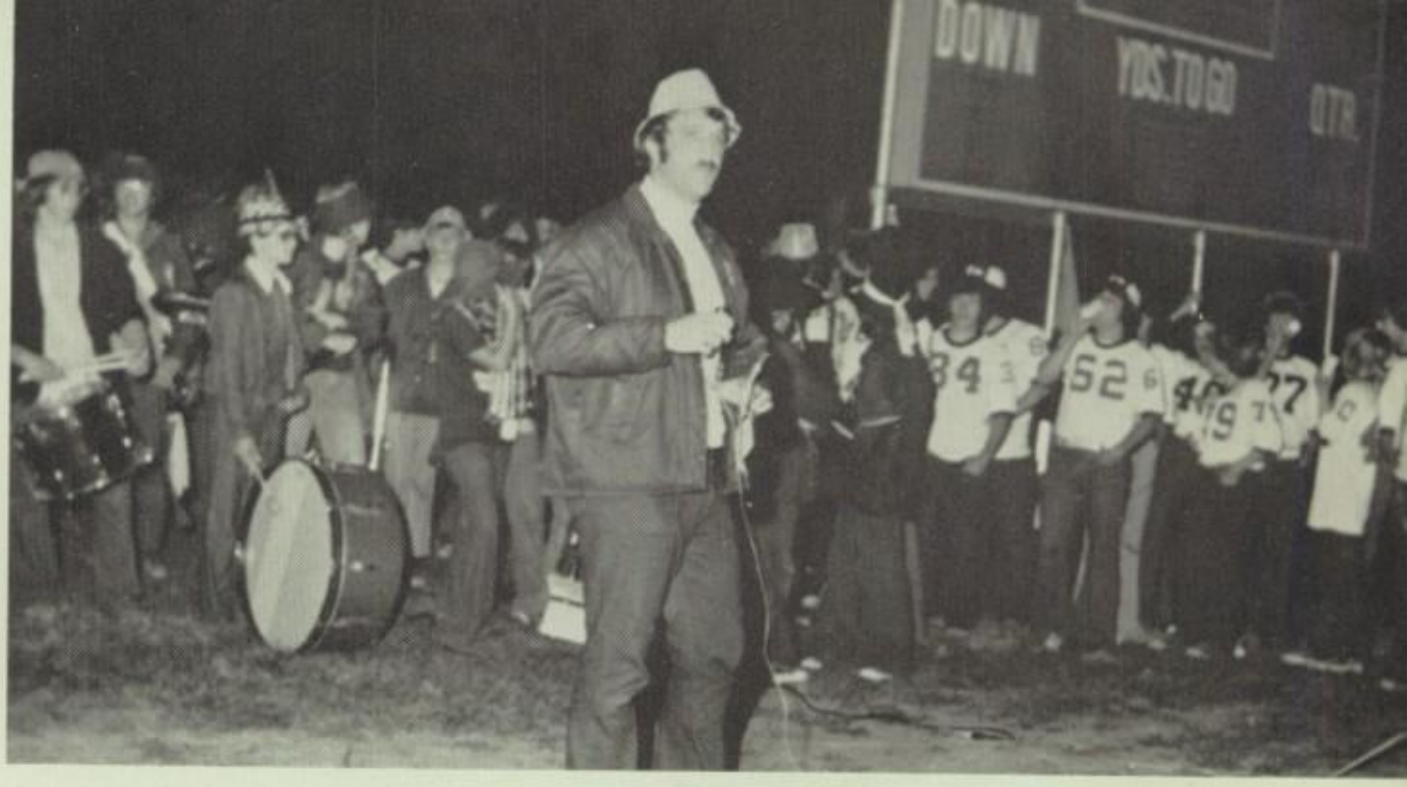
September Centerfold



This week we worked hard on eliminating mistakes, tomorrow will be our best performance of the year . . . .

Did they start without us?

I think we missed the turn!

60 minutes to go!!

Where are we going?

Don't laugh at me, they're wrong.

A perfect day. I didn't do one thing right!

ROBERT BARRY

The yearbook staff would like to express their special thanks to the many people who have in any way contributed time, money, or efforts to make this yearbook possible. We have tried to represent in pictures some of the finer and maybe some of the not so fine moments of our life at MHS. To those who have already graduated we hope it will bring back some memories and make you wish you were back. To the underclassmen it gives you an idea of what's in store for you. We only hope that in some way it has pleased you and the buyers.

Here we stand, so naive when it comes to facing life. We have been guided and instructed for twelve years, in the difference between right and wrong. We have been informed about cruel dictators, chaotic revolutions, and the hope of preserving peace. Our teachers have tried their best, and have done all they can to make us mature, responsible adults, but it is now left up to us to use our knowledge sensibly in foreseeing the future. Our generation is the determining factor of the fate of our country, and perhaps the world. We must be ready to take the responsibility of being the crusaders for freedom, foes of communism, and world leaders. We must form the backbone of our country and take a strong stand in doing so.

It has taken twelve years for us to adjust, and become a class as one; twelve years to work, joke, to face and solve problems together. But time is limited. We must learn to become aware to react quickly and intelligently when faced with future dilemmas. We will achieve this level with the help of faith, hope, work, and an understanding of one another, which books cannot teach us.

Our school years have done their part in feeding us with knowledgeable information, but it is only a small beginning when compared to the experience and wisdom gained in oncoming years; something we must seek on our own.

This Is A Whole New Beginning . . .

D.E.M.A.S.
